

Port-a-Mouse System

Port-a-Mouse System includes a Laptop, Printer, Scanner, Software, ImageMouse with (1) Capture Unit, and Heavy Duty Carrying Case.

Complete Port-a-Mouse System Shown

The Eye Com Port-a-Mouse System is the first truly portable Reader/Printer ever made, capable of many tasks like, scanning, printing, saving, emailing, downloading and faxing*. All these features and so many benefits.

The Port-a-Mouse can be used for any type of archival or history searches, this includes but is not limited to colleges, libraries, medical facilities, government agencies, title search companies and law enforcement agencies; or anyone who needs to search/view, or digitally capture images, old documents and/or microfilm images.

For added convenience Eye Com has developed many system types to fit your individual needs. See column on right for different systems. The Port-a-mouse is completely versatile and easy-to-use.

*See Reverse side about faxing
